

## Alternative News Sources

In today's political climate, the main stream media collectively has become the "spokes organization" for the current administration.

Alternative points of view are seldom provided by the main stream media and, as a result, a number of "conservative" media outlets have come into being over recent years. While less well known, they are growing their audiences and providing perspective on the significant issues of our time. Many of these "alternative" views are ones that have been and continue to be suppressed by the mainstream news media.

One free website that offers an abundance of news outlets is Pluto TV ([www.Pluto.tv](http://www.Pluto.tv)). Under the section entitled "News & Opinion", there are a number of news outlets to include, but not limited to, Newsmax, Blaze Live, Real America's Voice, OAN News and The First. These alternative news sources provide news, commentary and analysis of major issues impacting our culture.

The news channel entitled "Real America's Voice" has a program called the "Warroom" hosted by Steve Bannon. The breadth of content, in-depth analysis and discussion by many prominent figures are not only educational but also encouraging.

The "Warroom" is live on Real America's Voice Monday through Saturday from 10:00 am to Noon and again from 5:00 pm to 7:00 pm (the 6:00 pm hour is broadcast only on [www.warroom.org](http://www.warroom.org) and not on the "Real America's Voice" channel). The evening program is not a repeat of the morning show.

The list below, while not inclusive, is an attempt to compile in one location many sites that offer news, commentary and analysis of the major issues of our day. It is worthy to note that many of the principals who have websites/podcasts below are guests on the "Warroom", thus making it a "one stop" forum for staying up to date on the key issues of the day.
