
WHAT WE BELIEVE

We believe free enterprise and personal initiative have brought this nation opportunity, economic growth, and prosperity.

We believe in a limited government that practices fiscal responsibility and works to lower taxes so individuals can keep more of their hard-earned money.

We believe in a strong national defense to ensure that Americans remain safe, terrorists are defeated and democracy flourishes throughout the world.

We believe the Republican party is the best vehicle for converting these ideals into positive and successful principles of government.

These beliefs were adopted by the Lancaster County Republican Committee and our Club endorses them.
